There are homes where the outdoor space is simply an added feature... and others where it becomes the true star of the property.

We are delighted to present this fantastic apartment in La Zenaida, Rincón de la Victoria, featuring an impressive wraparound corner terrace that extends around a large part of the property and offers magnificent open views of the Mediterranean and the surrounding area.

This exceptional outdoor space includes several different areas as well as a section covered by a pergola, making it perfect for enjoying breakfast overlooking the sea, dining outdoors, sunbathing, or spending time with family and friends. A terrace designed to be enjoyed practically all year round.
